## GENEALOGY ·N·E·W·S·

NOVEMBER 2018

*Libraries and museums are the DNA of our culture...*

~ Vartan Gregorian

### DPLA! <https://dp.la/>

So many sources to research! If you have not heard of the **Digital Public Library of America**, it is *fairly* new. **DPLA** was started by Harvard and was launched in 2013 to be a one stop discovery source. From the site: “**DPLA** brings together the riches of America’s libraries, archives, and museums, and makes them freely available to the world.” Like all research websites that we travel to, there is no telling if we will have fun wasting time or if there will be a small treasure to be found. **DPLA** has a special genealogical section consisting of photographs, maps, oral histories and more that we will spend a short time exploring at the 4:30 November group. A research question suggested by **DPLA** might be: “What did [*such and such a city*] look like in [*particular year*] when my family lived there?”

*Who was Sarah Josepha Hale?*

### November 14<sup>th</sup>

**4:30PM** (usual time) – short program on the DPLA and U. S. Census, time permitting. Snacks

*We inherit from our ancestors gifts so often taken for granted. Each of us contains within this inheritance of soul. We are links between the ages, containing past and present expectations, sacred memories and future promise.*

## Thanksgiving

It has seemed to me fit and proper that they should be solemnly, reverently and gratefully acknowledged as with one heart and one voice by the whole American people. I do therefore, invite my fellow citizens in every part of the United States, and also those who are at sea and those who are sojourning in foreign lands, to set apart and observe the last Thursday of November next as a day of thanksgiving and praise to our beneficent Father who dwelleth in the heavens. *Proclamation*  
~ October 3, 1863 Abraham Lincoln

*One of the powerful functions of a library – any library – lies in its ability to take us away from worlds that are familiar and comfortable and into ones which we can neither predict nor control, to lead us down new roads whose contours and vistas provide us with new perspectives.*  
~ Richard F. Thomas

## From the Magazines

- ✂ You've heard of the television show called "The Amazing Race" on CBS, but have you heard of "Relative Race." According to *Family Tree Magazine*, the show is on BYUtv and as each episode unravels the teams complete challenges and try to discover new family members identified by DNA. Hmmm.
- ✂ On page 56 of *Family Tree Magazine* – Oct. Nov. 2018, there is a fascinating article by RI's own Maureen A. Taylor on searching clues in old photos for identification purposes. Great detective work!
- ✂ If you are not familiar with the Digital Public library of America – DPLA for short, you'll get a good overview in the Oct. Nov. 2018 of *Internet Genealogy*. Give it a try next time online!

*"Feeling gratitude and not expressing it is like wrapping a present and not giving it."*

~ William Arthur Ward

*Sarah Josepha Hale was editor of Ladies Magazine and later Godey's Lady's Magazine and is considered the person most responsible for advocating to make Thanksgiving a holiday as she wrote editorials to urge a national day of thanks beginning in 1827.*
